To All,

Based on last week's request to provide GIS support to the REOC, we approved the contractor to provide that support.

Prior to that approval, I talked to GSA P.O. And received an email from her that also went to the GSA C.O. She advised me that 1) they had discussed, 2) agreed that this work was in accordance with the PWS and 3) funding was on the IA.

My request to you (LaMonica) is to add MA\$ to the IA by whatever method is appropriate, so that these labor hours can ultimately be charged to that accounting line.

Please let me know if you have further questions.

Thanks,

Derek
